CALACATTA**

The background of the entire image is a detailed marble pattern. It features a light cream or off-white base color, overlaid with intricate, organic veins in shades of beige, tan, and light brown. The veins vary in thickness and direction, creating a complex, natural-looking texture. The overall appearance is that of a high-quality stone or a realistic marble-imitating material.

GREY**

The background of the entire image is a complex, organic marbled texture. It features a mix of dark charcoal and grey tones, interspersed with lighter, warm brown and tan hues. The patterns are irregular and vein-like, resembling natural stone or a high-quality laminate finish. The overall effect is one of depth and natural beauty.

The background of the image is a detailed, close-up view of a natural stone, likely onyx, showing complex, wavy, and layered patterns. The colors range from light beige and cream to dark grey, black, and brown, creating a rich, organic texture. The layers are irregular and often form concentric or swirling shapes.
